Education

B.Tech Information Technology,

PSNA College of Engineering and Technology

2023 – 2027 | Dindigul

CGPA:7.84(till 4th Sem)

Skills

- Frontend: HTML, CSS, JavaScript, React.js, Responsive Web Design
- Backend: Node.js, Express.js, RESTful APIs
- Database: MongoDB, SQL
- Tools: Git, GitHub, VS Code, IntelliJ IDEA, Cusor AI
- Programming: C, C++, Java
- Software Development: Debugging, Data Structures, Problem Solving
- Development Practices: Agile Methodology, Version Control

Projects

JBS – Job Buying & Selling Platform

Developed a full-stack web application using React, Node.js, Express, and MongoDB, enabling users to manage job listings through secure backend APIs.

AIQGen – Automatic Question Paper Generator

Built a web application using TypeScript and Express.js to generate question papers based on selected topics and difficulty levels.

Military Object Detection (YOLO)

Implemented an object detection system using YOLOv8 and Python to identify military objects such as tanks, aircraft, and soldiers from images.

Retail Billing System – Rice Shop POS Application

Built a mobile billing app for my father's rice shop, automating billing, reducing errors, and supporting wireless printing with tax/discount features

Experience

Tech Lead & Backend Developer,

T-Hub Startup Incubation Program

07/2025 – 08/2025 | Hyderabad

- Developed backend services using Node.js and Express.js
- Built and tested RESTful APIs for core application features
- Integrated MongoDB for database operations

Area of Interest

- Web Development
- Mobile Application development
- Prompt Engineering
- DevOps

Achievements

2nd Place – MCA Ideathon,

PSNA college of engineering and technology

Secured 2nd place in a state-level ideathon for innovative technical problem-solving.

5G6G Hackathon – Government of India

Selected as a **Top 90 finalist** in the national-level 5G6G Hackathon organized by the Ministry of Telecommunication.

Startup Project – T-Hub Incubation

Published a startup project during the T-Hub Startup Incubation Program, Hyderabad.

Smart Serve Hackathon – IIT BHU, Varanasi

Demonstrated a real-time object detection system on a military dataset during the offline final round, achieving **5th place** among competing teams.

Certifications

- Red Hat Certification – 40 Hours Professional Training (Linux Fundamentals)
- MongoDB Certification – MongoDB & ICT Academy
- PGDCA Certification
